

About NDS Cognitive Labs

NDS Cognitive Labs rapidly implements sophisticated yet affordable conversational AI, cloud, and digital transformation solutions in real time for mid-market and enterprise companies seeking competitive advantage, resilience, and growth.

Leading the implementation of digital transformation and cloud-based solutions for global finance, manufacturing, retail, and hospitality organizations, NDS Cognitive Labs is co-located in Mexico and the United States, serving North America, South America, Europe and India with highly skilled technology teams trained in U.S. and global standards.

With decades of experience, education, and training in advanced technologies, NDS Cognitive Labs delivers essential innovation and a collaborative team experience through its close partnerships with leading, global technology companies such as IBM, Amazon, Microsoft, Google, MongoDB, Zendesk and LivePerson.
