

CLOUD COMPUTING AND MIGRATION

Cloud, multi-cloud and hybrid-cloud solutions provide access to powerful infrastructure, platform and software as a service (SaaS) solutions that enable you to compete effectively in a rapidly changing world.

Opportunities

- › Bypass costly hardware, installation and management and optimize and modernize your applications for availability, fault tolerance and speed.
- › Migrate to the cloud to customize and update existing technologies and enable powerful new solutions.
- › Modernize, adapt, and scale quickly with cloud solutions.

Our Solutions

We build secure end-to-end cloud technology stacks based on the latest technologies to make powerful new solutions available to all.

Infrastructure as a Service (IaaS) Efficient and affordable, this model enables you to use cloud computing quickly, easily and only pay for what you use. Nothing to buy, manage or support.

Platform as a Service (PaaS) Deliver everything from simple cloud-based apps to sophisticated, cloud-enabled enterprise applications without worrying about infrastructure.

Lift and Shift Move your application and data to the cloud quickly and easily.

Cloud Optimization Optimize your workflows, data architecture and infrastructure for the cloud environment to be highly available, fault tolerant and fast.

About NDS Cognitive Labs

We help drive sales, add new value, and accelerate ROI with rapid and affordable digital transformation solutions and technical talent for well-funded startups and enterprise organizations.

Why Mexico?

With a tech workforce expanding 3x faster than the global average, 20% of college graduates with engineering degrees (far surpassing the U.S.), investors and tech firms are increasing operations in Mexico.
